subject index

BIOCHEMICAL SYSTEMATICS AND ECOLOGY

INDEX TO VOLUME 22 (1994)

Abies alba, monoterpene patterns in provenances of 53
Achillea,
flavonoid exudates from sects *Achillea* and *Babounya* 609
composition of essential oil from ten sp. of 679
Actinidia, chemotaxonomy of leaf flavonoids in 22 taxa of 277
Acylsugars, geographic distribution of, in *Lycopersicon pennellii* 545
Aglaia, insecticidal bioactivity of crude extracts of sp. of 121
Algae,
carotenoid composition of *Botryococcus braunii*, race L 25
carotenoid composition of six sp. of brown 31
distribution of pyrimidine derivatives in 11 sp. of 860
Alkaloids,
quinolizidine, transfer to parasitizing *Cuscuta* sp. 647
quinolizidine, occurrence of, in *Oxytropis ochrocephala* 858
Alkanes, leaf, discriminant analysis of, in five plant families 711
Allopolyploidy, origin of, in *Arabidopsis suecica* 807
Allozymes,
relationship between heterozygosity and shell size in *Mytilus edulis* 1
polymorphism of and protein profile, in *Orchesella bifasciata* 13
phylogeny of, in the genus *Eumeces* 491
use of, in study of genetic variations in *Marshallia graminifolia* 577
electrophoresis of, from two subsp. of *Chlamydotis* 775
electrophoresis of, from four populations of *Hippotragus niger* 781
data from 40 protein-coding loci in the Cichlidae 791
Aloe, occurrence of anthranoids in 11 sp. of 287
Ambystoma texanum, tissue-specific gene expression in 477
Anaxagorea dolichocarpa, composition of essential oil from fruits of 605
Angelica, chemotaxonomy of floral scent in generalistic 161
Angiosperms, evolution of chlorophyll biosynthetic heterogeneity in 211
Anthocyanins,
chemotaxonomy of, in *Podalyria* and *Virgilia* sp. 813
composition of, in four sp. 835
Anthranoids, occurrence of, in 11 *Aloe* sp. 287
Anti-insect activity, critical review of bioassay methods 837
Antibacterial activity, critical review of bioassay methods 837
Antifungal activity, critical review of bioassay methods 837
Apis mellifera, tissue specificity and developmental expression of hexokinase in 221
Arabidopsis suecica, origin of allopolyploidy in 807
Arnica acaulis, flavonoid glycosides in flowers of 229
Artemisia tridentata, inheritance of monoterpenoids in hybrids of 689
Ascorbic acid, effects of, on performance of gypsy moth 341
Aspleniaceae, chemotaxonomy of flavonoids in the 587
Asterolasia phebalioides, chemotaxonomy of coumarins from 433
Asteromyrtus, chemotaxonomy of essential oils from Australian sp. of 409
Astralagus,
phylogenetic position of, from evidence of chloroplast *rpo* genes 377
induced isoflavonoid phytoalexins in populations of *A. cicer* 657
Athyriaceae, chemotaxonomy of flavonoids in the 587
Atta laevigata, terpene composition of *Pinus carbaea*, in relation to herbivory by 437
Barbus brevipinnis, isozyme and allozyme differences in four populations of 269
Beauveria, chemotaxonomy of sp. and strains of 803
Beauverolides, in chemotaxonomy of *Beauveria* and *Paecilomyces* sp. 803
Biflavones, chemotaxonomy of, in the Cycadales 595

Bioassays, a critical review of 837
Bombus terrestris, behaviour of and scent profiles of colour morphs of *Corydalis cava* 231
Boraginaceae, discriminant analysis of leaf wax alkanes in the 711
Boronella pancheri, constituents of, from New Caledonia 434
Botryococcus braunii, carotenoid composition of race L 25
Cactaceae, phytochemistry and chemotaxonomy of seeds from eight sp. of 79
Carotenoids,
composition of, in *Botryococcus braunii*, race L 25
composition of, in six sp. of brown algae 31
Cassinia, vacuolar and exudate flavonoids from four sp. of 501
Cephaelis subcoriaceae, anthocyanin composition in 835
Chemometrics, in analysis of infraspecific variability of *Thymus* essential oils 307
Chemosystematics,
of carotenoids in six sp. of brown algae 31
of xanthones in evolution of the Gentianaceae 85
significance of limonoids in *Toona ciliata* 323
of flavonoids from *Tagetes rupestris* 431
biochemical, of the genus *Eumeces* from East Asia 491
of leaf oils in *Eucalyptus nitens* and *E. denticulata* 631
of *Juniperus* sp. from the Chihuahua Desert 699
of flavonoid glycosides in 18 sp. of *Plantago* 729
molecular, of the Cichlidae 791
Chemotaxonomy,
of wing pigments in emerald moths 43
of monoterpenes in cortex oleoresin of *Abies alba* 53
of seed constituents of eight sp. of Cactaceae 79
of flavonoids in 27 sp. of *Diplusodon* 101
of floral scent in generalistic *Angelica* 161
of constitutents of glandular trichomes of *Hymenoxys* and related genera 171
of alkanes in epicuticular wax of some Solanaceae sp. 203
of leaf flavonoids in 22 taxa of *Actinidia* 277
review of phenolic constituents in the subtribe *Crepidinae* 297
of ethanol extract profiles of the genus *Discodermia* 353
biochemical, of populations of *Clathrina* sp. 367
of essential oils from Australian *Asteromyrtus* sp. 409
of coumarins in *Asterolasia phebalioides* 433
of flavonoids from New Zealand *Cassinia* sp. 501
of naphthoquinones in the Droseraceae 507
of volatile oils from *Teucrium polium* 529
of flavonoids from three *Ranunculus* sp. 533
of depsidones in *Lobaria pulmonaria* 583
of flavonoids in the Athyriaceae and Aspleniaceae 587
of flavonoids in the genus *Euchresta* 621
of pyranocoumarins from *Eriostemon apiculatus* 641
of essential oils from *Achillea* sp. 679
of leaf wax alkanes in five plant families 711
of sterols in 21 sp. of sponges 735
of *Tolypocladium, Beauveria* and *Paecilomyces* sp. 803
of anthocyanins in *Podalyria* and *Virgilia* sp. 813
Chemotypes,
based on quinolizidine alkaloids from *Lupinus argenteus* 663
of *Thymus pulegioides*, in relation to soil chemistry 819
Chlamydotis, genetic variability of two subsp. of 775
Chlorophyll, evolutionary study of biosynthetic heterogeneity of 211
Chloroplasts, phylogeny of *rpo* genes in the genus *Astralagus* 377
Cichlidae, evolutionary relationships between 15 Old World sp. of 791
Clathrina, biochemical systematics of sibling sympatric sp. of 367
Corydalis cava, scent profiles of colour morphs of and bumblebee behaviour 231

Coumarins,
distribution and inheritance of, in some *Prunus* sp. ... 197
chemotaxonomic review of, in the subtribe Crepidinae ... 297
Crambescidin 800, isolation from *Monanchora arbuscula* ... 645
Crepidinae, chemotaxonomy of phenolic constituents from 20 sp. of ... 297
Cupressus,
chemical and ecological variability of five populations of *C. bakeri* ... 393
occurrence of karahanaenone in four sp. of ... 857
Cuscuta, transfer of quinolizidine alkaloids from Fabaceae sp. to sp. of ... 647
Cycadales, chemotaxonomy of biflavones in the ... 595
Cynomorium coccineum, anthocyanin composition in ... 835
Daucus carota, constituents of var. *boissieri* grown in Egypt ... 762
Diplusodon, chemotaxonomy of flavonoids in 27 sp. of ... 101
Discodermia, chemotaxonomy and species differentiation in the genus ... 353
DNA, nuclear 18S ribosomal, in phylogeny of Tephritid flies ... 447
Droseraceae, taxonomic significance of naphthoquinones in the family ... 507
Dugaldia pinetorum, isolation of pectolinarigenin from ... 109
Electrophoresis,
of five allozyme loci in two mussel subsp. ... 1
of allozyme variation and protein profiles in *Orchesella bifasciata* ... 13
of four hexokinase loci in *Apis mellifera* ... 221
of isozyme and allozyme differences in populations of shortfin barb ... 269
in analysis of genetic differences among leafroller moths ... 329
of isozyme patterns in the genus *Clathrina* ... 367
in analysis of genetic structure of five fish sp. ... 459
of gene products in tissues of salamander ... 477
of allozymes from the genus *Eumeces* ... 491
of nine enzymes from populations of *Marshallia graminifolia* ... 577
of enzymes in tertramoriine ants and their parasites ... 753
of enzymes from two sibling sp. of *Polydora* ... 767
of allozymes from two subsp. of *Chlamydotis* ... 775
of allozymes in four populations of *Hippotragus niger* ... 781
of allozymes from 15 sp. of the Cichlidae ... 791
of isoenzymes in seeds of Spanish *Phaseolus vulgaris* ... 827
ELISA, use of, to evaluate predation on *Eupoecilia ambiguella* ... 671
Emerald moths, chemistry and systematic importance of wing pigments in ... 43
Enzymes,
isozyme and allozyme differences in populations of shortfin barb ... 269
polymorphism of, in tetramoriine ants and their parasites ... 753
electrophoresis of, from two sibling sp. of *Polydora* ... 767
Eriostemon,
composition of pyranocoumarins from *E. apiculatus* ... 641
angular pyranocoumarins from *E. thryptomenoides* ... 863
Essential oil,
chemical variability of, in populations of *Teucrium puechiae* ... 239
polymorphism of composition of, in two *Thymus* sp. ... 307
chemotaxonomy of, in Australian *Asteromyrtus* sp. ... 409
intraspecific variations in leaves of *Melaleuca alternifolia* ... 419
geographic variation in content of, in *Origanum vulgare* ... 517
composition of, in fruits of *Anaxagorea dolichocarpa* ... 605
composition of, from *Achillea* sp. ... 679
relationships between soil chemistry and composition in *Thymus pulegioides* ... 819
Eucalyptus, variation in leaf oils of *E. nitens* and *E. denticulata* ... 631
Euchresta, phylogenetic analysis of, based on secondary metabolites ... 621
Eumeces, biochemical systematics of sp. from East Asian islands ... 491
Eupoecilia ambiguella, use of ELISA to evaluate predation on ... 671
Euterpe edulis, anthocyanin composition in ... 835
Evolution, study of chlorophyll biosynthetic heterogeneity in Angiosperms ... 211

Fabaceae, transfer of quinolizidine alkaloids from sp. of to *Cuscuta* sp. 647
Fatty acids, composition of, from seed oils in eight sp. of Cactaceae 79
Figs, nutritional value of, to a hind-gut fermenting frugivore 137
Fish,
isozyme and allozyme differences in populations of shortfin barb 269
genetic indicators of tolerance to acid deposition in five sp. of 459
evolutionary relationships in the Cichlidae 791
Flavonoids,
developmental variation of free aglycones in *Mentha* x *piperita* 95
chemotaxonomy of, in 27 sp. of *Diplusodon* 101
isolation of pectolinarigenin from *Dugaldia pinetorum* 109
isolation of xanthomicrol from *Hymenoxys scaposa* 111
glycosides of, in flowers of *Arnica acaulis* 229
leaf, chemotaxonomy of, in 22 taxa of *Actinidia* 277
chemotaxonomic review of, in the subtribe Crepidinae 297
chemosystematics of, from *Tagetes rupestris* 431
glandular, from *Tofieldia glutinosa* var. *brevistyla* 432
vacuolar and exudate, from four sp. of *Cassinia* 501
chemotaxonomy of, in *Ranunculus* sp. 533
chemotaxonomy of, in the Athyriaceae and Aspleniaceae 587
chemotaxonomy of biflavones in the Cycadales 595
exudate aglycones from *Achillea* sects *Achillea* and *Babounya* 609
in phylogenetic analysis of the genus *Euchresta* 621
glycosides, in chemosystematics of *Plantago* sp. from Egypt 729
content of, in *Perezia ocorzonera* 761
flavone glucosides in *Daucus carota* var. *boissieri* 762
composition of, in *Haematoxylon campechianum* 763
external, composition of, in *Holocarpha* sp. 859
myricetin 3-*O*-arabinofuranoside in *Sedum montanum* 861
Flourensia cernua, secondary chemistry of leaf surface of 73
Frugivory, a nutritional analysis of the value of figs to 137
Gene expression, tissue-specific, in *Ambystoma texanum* 477
Gentianaceae, reappraisal of evolutionary significance of xanthones in the 85
Gum, composition of exudate from *Pereskia guamacho* 291
Haematoxylon campechianum, flavonoids and other phenolics from 763
Haplosclerida, chemotaxonomy of sterols in sp. of the 735
Heterozygosity, of *Mytilus edulis* sp. complex in southwest England 1
Hexokinase, tissue specificity and developmental expression in *Apis mellifica* 221
Hippotragus niger, genetic heterogeneity in, from southern Africa 781
Holocarpha, composition of external flavonoids from sp. of 859
Hybrids, inheritance of monoterpenoids in, of *Artemisia tridentata* 689
Hydrocarbons, cuticular, variations in *Schistocerca americana* 563
Hymenoxys,
sesquiterpene lactones and flavonoid from *H. scaposa* var. *linearis* 111
chemistry of glandular trichomes from and related genera 171
Insects,
chemotaxonomy of wing pigments in emerald moths 43
growth retarding activity of lichen substances against *Spodoptera littoralis* 113
bioactivity of crude extracts of *Aglaia* sp. against *Peridroma saucia* 121
biological activity of extracts of *Trichilia* sp. against lepidopteran larvae 129
tissue specificity and developmental expression of hexokinase in *Apis mellifera* 221
scent profiles of colour morphs of *Corydalis* and bumblebee behaviour 231
genetic differences among pheromonally distinct leafroller moths 329
effects of foliar phenolics and ascorbic acid on gypsy moth 341
terpene content of pine needles and herbivory by leafcutter ants 437
DNA sequencing in phylogeny of true fruit flies 447
variations in cuticular hydrocarbons from grasshopper 563
use of ELISA to evaluate predation on *Eupoecilia ambiguella* 671

enzyme polymorphism in 19 sp. of tetramoriine ants 753
Isoenzymes, variability of, in seeds of Spanish *Phaseolus vulgaris* 827
Isoflavonoids, induced, in populations of *Astragalus cicer* 657
Isozymes,
use of, to discriminate between leafroller moths 329
systematics of, in the genus *Clathrina* 367
variations in, in relation to stress-tolerance in fish 459
analysis of, in tissue-specific gene expression in salamander 477
Juniperus,
geographic variation in volatile terpenoids in two sp. of 65
geographic variation and systematics of four sp. of 699
Karahanaenone, occurrence of, in Californian *Cupressus* sp. 857
Lamiaceae, discriminant analysis of leaf wax alkanes in the 711
Lavatera maritima, anthocyanin coposition in 835
Lectins,
interactions, with components of bacterial peptidoglycan 153
monoclonal antibody as a conformational and phylogenetical probe for 317
three-dimensional structure of in phylogeny of the Leguminosae 401
Leguminosae, phenetic/phylogenetic relationships between lectins from the 401
Lepidoptera, biological activity of extracts of *Trichilia* sp. against 129
Lichens,
growth retarding activity of compounds from against *Spodoptera littoralis* 113
depsidones from *Lobaria pulmonaria* 583
Limonoids, significance of, in *Toona ciliata* 323
Lobaria pulmonaria, isolation of β-oricinol depsidones from 583
Lupinus argenteus, variability of quinolizidine alkaloids from 663
Lycopersicon pennellii, acylsugars in relation to geographic distribution of 545
Lymantria dispar, effects of phenolics and ascorbic acid on performance of 341
Marshallia graminifolia, genetic variation within and among populations of 577
Melaleuca alternifolia, intraspecific variation in leaf oils from 419
Mentha x *piperita*, developmental variation of free flavonoid aglycones in a clone of 95
Monanchora arbuscula, isolation of crambescidin 800 from 645
Monoclonal antibody, use of, as a conformational and phylogenetical probe for lectins 317
Monoterpenes,
chemistry of, on leaf surface of *Flourensia cernua* 53
patterns in cortex resin of twigs of *Abies alba* 73
variability of, in populations of *Cupressus bakeri* 393
variation in *Pinus caribaea* needles in relation to herbivory 437
inheritance of, in hybrids of *Artemisia tridentata* 689
Moths, genetic differences among pheromonally distinct leafroller 329
Mytilus edulis, heterozygosity of sp. complex in southwest England 1
Naphthoquinones, taxonomic significance of, in the Droseraceae 507
Orchesella bifasciata, allozyme polymorphism and protein profile in 13
Origanum vulgare, variation in essential oil content and trichomes in Greek 517
Oxalate, total, content in 60 sp. of palms 389
Oxytropis ochrocephala, occurrence of quinolizidine alkaloids in 858
Paecilomyces, chemotaxonomy of sp. and strains of 803
Palms, oxalate content in 60 sp. of 389
Pectolinarigenin, isolation of, from *Dugaldia pinetorum* 109
Peptidoglycan, interactions of plant lectins with components of 153
Pereskia guamacho, composition of gum exudates from 291
Perezia ocorzonera, flavonoid content of 761
Peridroma saucia, activity of crude extracts of *Aglaia* sp. against 121
Petrosida, chemotaxonomy of sterols in sp. of the 735
Phaseolus vulgaris, isoenzymatic variability in seeds of Spanish 827
Phenolics,
chemotaxonomic review of, in the subtribe Crepidinae 297
effects of foliar on performance of gypsy moth 341
composition of, from *Porophyllum obscurum* 543

Phylogeny, molecular, of 51 sp. of the genus *Astralagus* 377
Phytoalexins, induced by *Bipolaris zeicola* in *Astragalus cicer* 657
Phytolacca dodecandra, factors influencing release of molluscicidal saponins from berries of . 249
Pigments, chemistry and systematic importance of wing, in emerald moths 43
Pinanga polymorpha, anthocyanin composition in 835
Pinus caribaea, terpene variation in needles of, in relation to herbivory 437
Plantago, chemosystematics of flavonoid glycosides in 18 sp. of 729
Podalyria, chemotaxonomy of anthocyanins from sp. of 813
Pollution, metal, relationship with allozyme polymorphism in *Orchesella*, ... 13
Polydora, genetic differences between two allopatric sp. of 767
Porophyllum obscurum, phenolic constituents from 543
Prunus, distribution and inheritance of two coumarins in sp. of 197
Pyranocoumarins,
composition of, in *Eriostemon apiculatus* 641
angular, from *Eriostemon thryptomenoides* 863
Pyrimidine, distribution of derivatives of, in 11 algal sp. 860
Ranunculus, morphological and chemical relationships between three sp. of 533
RAPD, use of, in systematics of four *Juniperus* sp. 699
Rubisco, subunit polypeptide composition of, in *Arabidopsis suecica* 807
Saponins, molluscicidal, factors influencing release of, from *Phytolacca dodecandra* 249
Scent,
floral, chemotaxonomy of, in generalistic *Angelica* 161
of colour morphs of *Corydalis cava* and bumblebee behaviour 231
composition of floral in seven sp. of the Theophrastaceae 259
Schistocerca americana, variation in cuticular hydrocarbons from 563
Scropholuriaceae, discriminant analysis of leaf wax alkanes in the 711
Sedum montanum, occurrence of myricetin 3-*O*-arabinofuranoside in 861
Sesquiterpenes,
chemistry of, on leaf surface of *Flourensia cernua* 73
isolation of two lactones from *Hymenoxys scaposa* 111
variability of, in populations of *Cupressus bakeri* 393
variation in *Pinus caribaea* needles in relation to herbivory 437
Solanaceae,
chemotaxonomy of epicuticular alkanes in some sp. of 203
discriminant analysis of leaf wax alkanes in the 711
Spodoptera littoralis, growth retarding activity of lichen substances against 113
Sponges,
marine, chemotaxonomy and species differentiation in *Discodermia* 353
biochemical taxonomy of the genus *Clathrina* 367
chemotaxonomy of the Haplosclerida and Petrosida 735
Sterols, in chemotaxonomy of the Haplosclerida and Petrosida 735
Stress, environmental, genetic indicators of tolerance to in five fish sp. 459
Tagetes rupestris, chemosystematics of flavonoids from 431
Tephritid flies, use of 18S ribosomal RNA gene in classification of 447
Terpenoids,
variation of volatile, in *Juniperus monosperma* and *J. osteosperma* 65
leaf, in systematics of four *Juniperus* sp. 699
Teucrium,
chemical variability in essential oil from *T. puechiae* 239
GC-MS analysis of volatile oils from varieties of *T. polium* 529
Theophrastaceae, composition of floral odours in seven sp. of the 259
Thymus,
essential oil analysis of *T. moroderi* and *T. antoninae* 307
relationships between soil chemistry and chemotypes of *T. pulegioides* 819
Tofieldia glutinosa, glandular flavonoids from var. *brevistyla* 432
Tolypocladium, chemotaxonomy of sp. and strains of 803
Toona ciliata, limonoids from and their significance 323
Trichilia, biological activity of extracts of sp. of, against lepidopteran larvae 129

Trichomes,
glandular, chemistry of, in *Hymenoxys* and related genera 171
geographic variation of, in Greek *Origanum vulgare* 517
acylsugars in exudates from *Lycopersicon pennellii* 545
Verbenaceae, discriminant analysis of leaf wax alkanes in the 711
Virgilia, chemotaxonomy of anthocyanins from sp. of 813
Volatile oils,
GC-MS analysis of, from two *Teucrium polium* varieties 529
variations in leaves of *Eucalyptus nitens* and *E. denticulata* 631
Wax,
epicuticular, chemistry of, in *Flourensia cernua* 73
epicuticular, alkane distributions in some Solanaceae sp. 203
Xanthones, reappraisal of evolutionary significance in the Gentianaceae 85

Compiled by Dr Peter J. Holloway, IACR-Long Ashton Research Station, Department of Agricultural Sciences, University of Bristol, Long Ashton, Bristol BS18 9AF, UK.
